Fellow P&DARCS Members

Greetings to one and all. I hope this update finds you all in good health and enjoying some flying. 2022 is well and truly up and running now and thankfully on the way to putting the events of the past 18 months or so behind us!

A quick reminder that the mass glider launch, BBQ and Twi Fly is coming up this Saturday (February 26th). The Roy Robertson Event follows on Sunday.

As well, the annual Monty Tyrrell Scale Rally will be in the spotlight again and we're all happy to see this special P&DARCS event back on the calendar again. The Monty will take place on Sunday, March 27th with a working bee on the Saturday in preparation for the event.

Under the guidance of Vice President Neil Addicott, your P&DARCS Future Planning Committee has met this year to start mapping out some visions for the ongoing management and upkeep of the club. High on the agenda are runways, building maintenance and an improved business model. Once the sub-committee is at a point with some definite items, these will be detailed and presented to the members.

Once again, if there are specific items that you feel should be on the committee's radar for the short or long-term benefit of the club, you are more than welcome to let me know your thoughts.

Our esteemed editor Frank is always looking for material for his monthly publication, so if you have some photos or an idea for an article, please let him know. A few quality photos and a short, one page collection of words will go a long way to help support a variety of content for the newsletter.

Don't forget, there are lots of jobs coming up around the field which need manual labor. Additionally, some more assistance with instructing is needed. If you can assist us with any of this, please send me an email so that we can start to schedule some items.

Clear skies to all

Keith Quigg | AUS 22897
P&DARCS President
