

Fellow P&DARCS Members

Burley Field Flood Update

Good afternoon everyone. Straight off the bat, we have no good news to report. As most of you would be aware, the rains have continued to fall, and our flying field is still soaked. There has been around 30mm of rain recorded there in the past two days.

An inspection was made today and clearly the field is still completely out of service. As I sit to prepare this report, the rain is falling heavily here in Blackburn and from our webcams, the same is happening at the club. The current band of rain extends over most of the southeastern part of our region.

What this means of course is that until we have a return to fine conditions, P&DARCS will remain closed and there is no timeline for us to reopen. Our path forward is entirely dependent on the weather, and we will need a few weeks of sunny skies for it to dry out enough for our crews to be able to mow. Thanks to Norm, Peter, Ian and Craig for keeping us all in the loop.

It feels like 2022 cannot be over soon enough at this rate.

If you have any questions, please feel free to contact me anytime.
